Hospitalists and inpatient clinicians are increasingly called upon to provide care for patients of high acuity across a broad spectrum of medical and surgical conditions. In the face of these demands, hospitalists strive to become **Master Clinicians**. We all recall the Master Clinician who helped train us; the clinician we most wanted to emulate. Our symposium's rapid pace, relevant topics, and high-paced format is designed to ensure a highly valuable experience that will help move participants towards their goal of becoming a master clinician.

Our faculty consists of national and international leaders in their fields and our sessions have been designed to provide highly relevant material in a concise and stimulating format.

### HIGHLIGHTS INCLUDE:

- Keynote speaker, Dr. Vikas Saini, President of the Lown Institute and Associate Physician at Brigham and Women's Hospital is a national leader in the provision of **High-Value Care**.
- A cast of **Internationally renowned experts** and outstanding speakers, including Jon Halperin discussing atrial fibrillation, Roseanne Leipzig on Geriatric Essentials, and Scott Freidman on Decompensated Cirrhosis
- **Pearls for Practice** series presenting rapid fire lectures on core topics, including C diff and Hyponatremia.
- **Skills Workshop** – Enhance your expertise in essential skills that impact patient care on a daily basis. Stations include *Acid-base interpretation, CXR evaluation, and advanced ECG analysis.*

Our highly rated **WORKSHOPS** provide participants with a choice of **Three Tracks** in which to gain expertise. Concentrate in one of these tracks to develop expertise or mix-and-match tracks to experience a greater variety of topics:

- (1) **HOSPITALIST AS GENERALIST**—Develop mastery of core topics, including Pre-Operative Assessment, Pain Management, and Clinical Skills
- (2) **HOSPITALIST AS SPECIALIST**—Develop expertise in Critical Care, Oncology for the Hospitalist, and Geriatric Essentials
- (3) **ENHANCING QUALITY & VALUE**—Workshops will educate and enlighten on Tech Tools: Apps, ipads, & More; Decreasing CLABS/CAUTI; and Malpractice Mock: Decrease Your Risk

Come to increase your knowledge of core topics, learn more of subspecialty conditions, increase your value to your hospital, and network with colleagues. In short, come to continue your quest to become a **Master Clinician!**

**SATURDAY, OCTOBER 24 – NEW OPTION**

**Maintenance of Certification (MOC) Credit!**

**ABIM requires hospitalists to earn MOC points every 2 years.**

**Sign up for our optional MOC module and earn 10 MOC points!**

## PROGRAM OBJECTIVES
