

Who We Are

The New York Chapter of the American College of Physicians (NYACP) is the state's largest medical specialty organization. NYACP represents 12,000 internal medicine specialists (internists), subspecialists, residents and medical students. The Chapter maintains a special focus on improving access and enhancing quality of care, promoting public health and patient safety, providing continuing medical education and promoting the use of evidence based practice guidelines.

Our Mission

NYACP is dedicated to advancing the specialty of Internal Medicine in New York State through education, advocacy and quality improvement. The mission of the NYACP is to enhance the quality and effectiveness of health care by fostering excellence and professionalism in the practice of medicine.

Our Goals

- To establish and promote the highest clinical standards and ethical ideals;
- To be the foremost comprehensive education and information resource for all internists;
- To advocate responsible positions on individual health and on public policy relating to health care for the benefit of the public, our patients, the medical profession and our members;
- To serve the professional needs of the membership, support healthy lives and improve the practice environment for physicians, and advance internal medicine as a career;
- To promote and conduct research to enhance the quality of practice, the education and continuing education of internists, and the attractiveness of internal medicine to physicians and the public;
- To recognize excellence and distinguished contributions to internal medicine; and
- To unify the many voices of internal medicine and its subspecialties for the benefit of our patients, our members, and our profession.

Working with members in our 5 regions and 16 districts across New York State, the NYACP provides educational opportunities highlighting the latest clinical advances in medicine, practice management improvement and public policy initiatives that promote increased access to care. The NYACP supports structural system changes to assure every patient has access to a health care delivery system which promotes affordable, high quality and efficient care.
