Commissioner's Medical Grand Rounds

Integration of Primary Care and Behavioral Health

Wednesday, October 3rd, 2018, 8:00am-10:00am
Forchheimer First Floor Lecture Hall 105 –
Albert Einstein College of Medicine
1300 Morris Park Avenue (Belfer 115), Bronx, NY 10461

Behavioral health conditions are frequently undiagnosed and untreated. While primary care can play a pivotal role in improving access to behavioral health services, increased understanding of the scope of the problem, the role of primary care, and practical strategies for integration are necessary to close the care gap. This session will emphasize the need for behavioral health services in primary care as well as the training, mentoring, professional support and resources available to primary care providers, and will also provide real life examples of how clinicians have integrated these services and resources into their practices.

The Grand Rounds Program is free of charge for all providers in NYS. Advance registration is requested.

Please click [HERE](#) to register to attend in-person or via the live webinar.

Registration ID is not required. Select "Not registered yet? Click here to register."

A recording of this session will be available for viewing on the [NYSDOH website](#).
