NYACP ABIM MOC Courses - Virtual and Live

October 24, 2020
Earn up to 20 MOC points and CME Credits!

Each Maintenance of Certification (MOC) Learning Session provides you with a collaborative environment to complete an ABIM Medical Knowledge module and earn MOC points. Led by ABIM Board Certified physicians, this interactive session allows you to work with your colleagues to develop answers to module questions. ABIM Board Certified physicians should submit their answers to ABIM for 10 MOC points and also claim CME credit once the Learning Session is completed.

Member Benefits

Online Defensive Driving/Auto Insurance Reduction Course

The Chapter continues to offer a 6-hour Insurance and Point Reduction Course that is approved by the NYS Department of Motor Vehicles and available to NYACP members, their families, office staff and friends. This convenient online member benefit allows registered "students" the ability to start and finish the course within 30 days for only \$42.00. The benefit includes a 10% reduction on your automobile insurance (liability, no-fault and collision) and up to 4 points off of your driving record (if applicable). More information can be found [by clicking here](#).

NYACP Geriatric Spotlight:

Optimizing Perioperative Care of the Older Patient:

What is different in the approach for this age group?

Eleanor Weinstein, MD, FACP

Older adults (those >65) are the fastest growing segment of the US population. As the "Graying of America" continues, this population is expected to double to 89 million between 2010 and 2050. Given the aging of our population, this group will account for a growing number of surgical procedures, including vascular surgery (with a projected growth of 31 percent) and general surgery (with a projected growth of 18 percent).

All providers including nurses, general internists and family physicians, medical subspecialists, anesthesiologists as well as the surgical team need to have the expertise to care for this often challenging group in the perioperative period.

Aaron Glatt , MD, MACP, FIDSA, FSHEA

Treatment of COVID 19 Infection: Where are we with clinical trials?
David Bernstein, MD, FAASLD, FACG, AGAF, FACP

[Registration Information](#)

There is no fee to attend this event. We kindly request that you register to attend before October 22, 2020.

Virtual Joint District Event (Hosted by the Hudson Valley Districts)

October 26, 2020 / 6:15-7:15/ Zoom

The District Presidents in NYACP's Hudson Valley Region invite you to join them in discussing areas of unconscious bias to create additional awareness and change to dispel implicit bias.

Implicit Bias: Stereotypes and Uncertainty in Healthcare *Story Slam, Presentation and Discussion*

[Moro O. Salifu, MD, MPH, MBA, MACP](#)

The event will open with a short Story Slam. If you would like to share your experience with unconscious bias in healthcare, [please submit your story by September 23, 2020](#). Those selected to tell their story will be notified by the Chapter prior to the event.

Also, in preparation for the implicit bias discussion, we recommend that you take the Project Implicit Social Attitudes 'Race IAT (Black - White Association Test)' located at: <https://implicit.harvard.edu/implicit/selectatest.html> since we will review the test's implications during our discussion. Upon registration, please feel free to submit any questions you may have regarding implicit bias. Dr. Salifu is looking forward to meeting you!

[Story Guidelines and Submission](#)

Submission deadline is September 23, 2020

[Registration Information](#)

There is no fee to attend this event. We kindly request that you register to attend before October 28, 2020.
