

The New York State Psychiatric Association's
Veteran's Mental Health-Primary Care Training
Initiative invites you to join:

The Clinical Importance of Understanding Military Culture

June 22, 2026 | 12:00pm - 1:00pm
presented by:

Meaghan Mobbs, PhD
United States Army Veteran

REGISTER HERE

Objectives:

- ▶ Identify the key functions and roles that Veterans fill, as described through the Warrior's Journey
- ▶ Identify how military roles impact Veterans' lives
- ▶ Assess the impact of military experiences and roles which impact Veterans and their families
- ▶ Improve ability to serve NY Veterans by applying this knowledge to improve practice

The New York State Psychiatric Association's Veteran's Mental Health – Primary Care Training Initiative (VMH-PCTI) provides essential training for primary care specialists, psychiatrists, and residents to ensure returning veterans receive the care they need in their communities. Our goal is to address the invisible wounds of war, reduce stigma, and improve access to mental health and substance use disorder treatment for military members.

For more information about the initiative and our other tracks, please visit our website at:
